mond to Be Vacant-Presiding Elders to Ee Swapped About. Conference Gossip.

There are distinct signs of another great stir-up in the V rginia Conference over the regularly agitated question of transfers. In fact the stir is already up and by the time Conference meets in Charlottesville in about two weeks, there will probably be some things dolig.

It will be recalled that something of a sim'lar sort happened last year, when the Rev. R. D. Smart, D. D., was brought here from another Conference and given Epworth of Norfolk, one of the Virginia plums. The ministers in the Virginia plums. The ministers in this State were indignant and they gave full vent to their feelings. It was held that there are in the Virginia Conference men theoroughly capable of taking care of any church in the gift of the denonination, however important. It went sorely against their grain to have an outs.der to step into one of the leading charges,

thereby in a sense being elevated above them. There was, of course, no personal fight on Dr. Smart, but it was the principle involved in his case that was looked upon with disavor. The matter was the talk of the Conference and when the body met in Richmond there was the suggestion of a movement toward checking the habit. But it never miterialized. The Bishop, it is said, would not entertain the proposition.

This year the same thing is happening. Court-Street, of Lynchburg, equal in importance to Epworth, is vacant and an outsider is brought in to fill it in the person of the Rev. G. C. Kelley, D. D. of Tulip-Street Methodst Church, of Nashville, Tenn. Dr. Kelley will be transferred to Virginia and there is small doubt that he will go to Court S reet. The ministers, or a great number of them, are up 'n arms again and are giving expresson to their views on the matter. Concerence meets very shortly and there may be some developments in this connection. It is within the range of possibilities that somebody will offer a resolution declaring the Conference against the transfer system. Whether or not the Bishops would entertain such a resolution, if offered, is another matter.

A LIVELY SESSION.

There is every indication that the vession of the Collego of Bishops there is made an important change, permitting any member of conference to nominate members for the boards. Heretofore this right has been held by the presking elders, and there has been a long standing fight between some of them and ucertain so-called radical element in the conference. The new decision will be something of an opening wedge that would permit this element to get the unper hand if it can muster a majority of the conference. With this law behind it, it might upset many things. It is unpolited has tyen to consider the affairs of the Conference, with this law behind it, it might upset many things. is a prospect for a general shifting about of the pastors.

Both presiding elders in Richmond will change, along with a majority of the pastors. Dr. Tudor will probably be made presiding elder of Richmond District, to succeed the Rev. R. H. Bennett, who goes to Randolph-Macon. The Rev. Dr. R. T. Wilson, of Petersburg District, is prominently mentioned for West Richmond. The Rev. Bernard F. Lipscomb will probably be made presiding elder to fill the vacancy caused by the removal of Mr. Bennett. It is now generally felt

that the chances for an increase in the number of the districts are very slim. In the event that the increase is made, however, there will have to be two more presiding elders. In this connection the names most prominently mentioned are those of Dr. H. E. Johnson, of this city; Rev. L. H. Betty, of this city, and Rev. T. McN. Simpson, of Danville.
